ŞİFRELI KARE

**1** Örümcekler, dünyanın birçok ekosistemine adapte olmuş, böylece çok farklı ekosistemlerde yaşayan bir grup haline almışlardır. Örümceklere Everest tepelerinden kanyonların derin çukurlarına, akarsu veya göl içlerine kadar değişik yaşam ortamlarında rastlamak mümkündür. Bütün örümcekler karnivordur.

**2** Bazı kelebekler zehirlidir. Bunlar çok yavaş uçar ve göz kamaştırıcı parlak renklere sahiptir. Bu renkler düşmanlarına karşı bir ikaz işaretidir. Bazı kelebekler de, sahte kafa işaretleri, kanatlarındaki göz işaretleriyle ve antene benzeyen kuyruk uzantılarıyla düşmanlarını şaşırarak kendilerini korurlar.
