1 Mandalina kelimesi, Türkçeye İtalyanca "mandarino" kelimesinden geçmiş, Batı kökenli bir sözcüktür. Bu sözcüğün kökeni de geçmişte bazı Çinli devlet adamlarının giydiği sarı renkli kaftana atfen Mandarin sözcüğüdür. Mandalina en çok Akdeniz'de, Ege bölgesinde ve kısmen Karadeniz Bölgesinde yetiştirilir.

2 Timsah armudu da denen avokado meyveleri, küre biçiminde, oval, elips ya da armut gibi eriksi tipli yeşil, kırmızı ya da erguvani renktedir. Eti krem sarı ya da beyazımsıdır. Taze olarak tüketilir, ayrıca yemeklerde ve salatalarda kullanılır. Çok besleyicidir. Avokadonun anavatanı Puebla eyaleti ve Meksikadır.
